 www.OrthoMinds.com

Interactive Payment Slider

- + Treatment Coordinators present a beautiful, easy to read payment option page
- + Patients choose the monthly payment that fit their budget

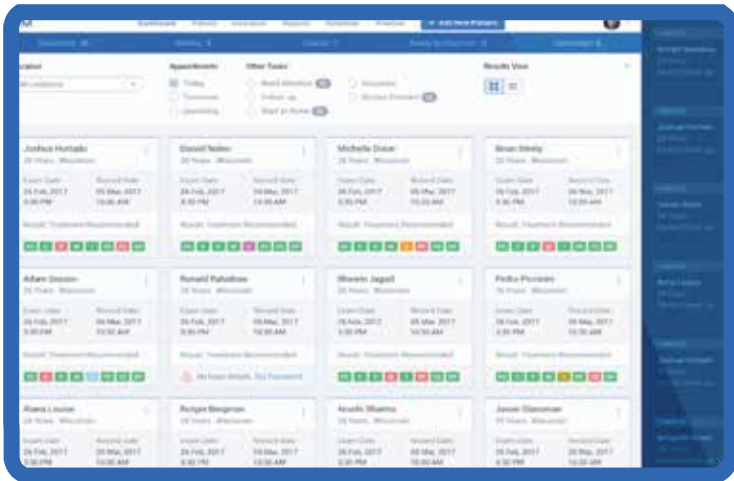

Treatment Card

- + Clinic staff will especially love this easy to read, easy to edit charting system
- + Check rubber band wear, treatment notes, images, and other important patient information quickly

Unique Dashboard

- + All the information you need, all on one bright screen
- + Easy tabs, one click – no need to search through multiple tabs to get where you want
- + Clear view of upcoming and follow-up patients

Dashboard Benefits

- + Quickly accessing patients with only a few clicks from the dashboard allows your practice to keep up with your patients and their needs
- + Having a clear snapshot of your daily patients keeps your day organized
- + View patients in grid or card format
- + Interactive, reliable and timely patient dashboard

OrthoMinds Benefits

- + Combined clinical and business tools eliminate 3rd party costs.
- + We file Insurance and perform Patient Billing on your behalf, empowering you and your staff to give more time and attention to your patients.
- + Superlative financial reporting increases efficiency and productivity.
- + Cloud based reliable software allows you to access your real time practice information from your home, hotel, airplane, car, or golf course
- + Intuitive user-friendly design allows for quick and easy implementation and training.
- + Direct image capture from your phone or tablet makes patient records easy to store
- + No in-house backups or server issues - cut expensive IT costs.
- + Insurance pre-verification and online patient forms remove the hassle of paper work allowing treatment coordinators to spend more time building new patient relationships.
- + Payment slider makes braces affordable for just about anyone – increasing patient starts
- + One-click patient communication feature can send mass emails, texts, and appointment reminders
- + Full suite of solutions allows for smooth patient flow and tracking
 - Billing • Charting • Imaging • Scheduling • Marketing
